

Write-Up:

The project consists of 8 components:

- ✓ Home Page (homepage)
- ✓ User Login Page (ulogin)
- ✓ Admin Login Page (alogin)
- ✓ Register Page (register)
- ✓ User Page (userpage)
- ✓ Admin Page (adminpage)
- ✓ Mode of Payment Page (payment)
- ✓ Payment Initiated Page (payinitiated)

- 1) Home Page consists of login buttons.
- 2) When clicked on User Login, redirects to user login page where already registered user can enter their credentials to explore the kitchen menu!
- 3) Incase of invalid credentials, user cannot access kitchen menu.
- 4) New user must register first to explore the kitchen menu.
- 5) Registration can be done using Register button, present in homepage.
- 6) After login, User will be able to see the menu and can order their favorites.
- 7) Further, page will be redirected to mode of payment page where user can choose their comfortable mode.
- 8) Choices available are:
 - ✓ Cash on delivery (COD)
 - ✓ Credit/Debit Card
 - ✓ UPI/QR Scan
- 9) Hence, payment process gets initiated!

Admin Login is for Admin who can select, add, edit or delete the kitchen menu. Again if login credentials are invalid then 'Invalid Credentials' will be displayed.
